

Opportunity: Student Geologist(s)

Employment Type: Contract (Summer 2023, 2-4 months)

Location: Abitibi-Témiscamingue Region / Duparquet, Quebec

First Mining Gold Corp. (First Mining) is guided by its values of safety, integrity, responsibility and collaboration. We develop and operate our projects safely, reliably and with care for our impact on the environment. With our presence in Ontario, Newfoundland and Québec, our people play an active role in building strong communities.

We are proud of how our hard work and commitment to sustainability sets us apart and benefits society and communities where we operate, every day. We are looking for a new team member(s) who shares our values and is ready to take on exciting challenges.

The Opportunity

We are seeking to hire contract Student Geologist(s) who will help support exploration and development study activities for First Mining and its Springpole, Duparquet and respective regional projects this summer. Reporting to and working closely with the Exploration team, the Student Geologist(s) will be integral in field data collection related to geoscience advancement for the company and its projects.

What you will do

As Student Geologist, your primary duties and responsibilities will be as follows:

- Assisting with geological field mapping, geophysical ground truthing, prospecting, soil sampling, and historical data validation.
 - Field navigation and traversing with GPS' and other field mobile devices
- Data collection: rock grab sampling, channel sampling, sample descriptions and structural measurements.
 - Use of mobile field data collection methodologies
 - Assistance with QAQC protocols and sample insertion
- Safe field practices in remote areas and working around boats, ATV's and helicopters
- Assisting with measuring, logging, photography, and geotechnical logging of drill core
- Moving and assisting geologic team in moving/handling core boxes and field samples
- Geologic data entry and compilation activities
- Such other duties and services that would reasonably be expected to be performed by a person employed by a public mineral exploration and development company in a similar position to that of the Employee

Preferred Qualifications and Education

- Currently enrolled B.Sc. program in; geology, earth sciences, or geological sciences.
- Prior experience working on Archean Greenstone hosted gold projects is considered an asset.

- Ability to work independently as well as collaboratively in a multi-disciplinary, cross-cultural team.
- Oral and written communication skills and a attention to detail.
- Work safely and contribute to safe practices of the First Mining Gold team.
- Willingness to travel (FIFO) and work within remote site settings as this position's rotation will be determined by core seasonal activities.
- Comfortable working in a dynamic work environment with a willingness to work outdoors.
- Ability to safely operate vehicles, at our operations, in various weather conditions and terrain.
- Must be legally entitled to work in Canada.

About First Mining Gold Corp.

First Mining is a gold developer advancing two of the largest gold projects in Canada, the Springpole Gold Project in northwestern Ontario, where we have commenced a Feasibility Study and permitting activities are on-going with a draft Environmental Impact Statement ("EIS") for the project published in June 2022, and the Duparquet, Pitt and Duquesne Gold Projects in Quebec, a collection of advanced-stage development assets located on the Destor-Porcupine Fault in the prolific Abitibi region. First Mining also owns the Cameron Gold Project in Ontario and a portfolio of gold project interests including the Pickle Crow Gold Project (being advanced in partnership with Auteco Minerals Ltd.), the Hope Brook Gold Project (being advanced in partnership with Big Ridge Gold Corp.), and an equity interest in Treasury Metals Inc.

First Mining was established in 2015 by Mr. Keith Neumeyer, founding President and CEO of First Majestic Silver Corp.
