FIRST NATIONS' AGREEMENTS SUPPORT SPRINGPOLE PROJECT DEVELOPMENT

First Mining Gold is honored to have signed agreements with First Nation communities surrounding the Springpole Gold Project, reinforcing a shared commitment to responsible development, environmental stewardship, and long-term community benefits.

During the month of August, First Mining Gold signed project agreements with Cat Lake First Nation, Lac Seul First Nation, and Slate Falls Nation.

The agreements establish a framework for significant First Nation participation throughout the construction, operation, and closure of the project while ensuring environmental protection and supporting community development priorities. They also provide opportunities for involvement in environmental stewardship, training, employment, business development, and financial benefits.

By creating a clear path forward, these agreements provide greater certainty for the development of the Springpole Project while supporting meaningful partnerships and shared success with neighbouring First Nation communities.

COMMUNITY CELEBRATION AT SIOUX LOOKOUT TOWN BEACH

First Mining Gold was excited to host a community appreciation event at the Sioux Lookout Town Beach, bringing residents together for an afternoon of food, music, and connection. Guests enjoyed a barbecue catered by the Sioux Lookout Shrine Club and the opportunity to spend time with friends, neighbours, and members of the First Mining team.

As part of the event, First Mining Gold was also pleased to present a donation to the Shrine Club in support of the Khartum Shrine Patient Transportation Fund, helping ensure children can access specialized medical care when needed. The celebration was a meaningful way to thank the Sioux Lookout community for its continued support and partnership.
